Saturday, June 20th

Conference opener	Time: 8:50-9:00 June 20	Venue: TBA
Speaker: Prof. Song, Bingtao (Dean, Henan University)		

Session Keynote	Time: 9:00-10:00 June 20	Venue: TBA
Speaker: Thomas G. Rawski (University of Pittsburgh)		
Chair: Peng, Kaixiang, Henan University		

Not From Post-1978 Reform Alone: How History Shapes China's Recent Economic Trajectory

Mounting evidence that China's reform-era growth has offset substantial institutional deficits through reliance on historic legacies of widely dispersed literacy, numeracy, entrepreneurship, and organizational capabilities highlights the need to bridge the long-standing gap separating research on China's historical and contemporary economies. New questions arise: if historic legacies are major contributors to China's current boom, what prevented them from supporting rapid growth long before the reform initiatives of the late 1970s? Why did the creation of special economic zones, expansion of international trade, and arrival of foreign direct investment accelerate Chinese growth in the late 20th century but not 100 years earlier? In short, how can economists and historians explain the multiple transformations of China's economy from near-stagnation to modest growth, wartime disruption, socialist mediocrity, explosive growth and, perhaps, impending slowdown?
